Subject: Re: Revised delivery timeline

Hi David,

Following up on our call yesterday — we'd like to propose pushing the draft recommendations milestone from April 1 to April 15 to account for the additional data sources your team flagged last week. Final report delivery would move to May 15 accordingly.

Let me know if this works on your end, or if there's a hard deadline we should be designing around instead.

Best,
Maria

Maria,

That timeline works for us. Please send an updated Exhibit A reflecting the new dates so we can countersign. One additional item: can the recommendations report include a separate cost-comparison section? Our board asked for it specifically at the last review.

Thanks,
David

David,

Confirmed — we'll add a standalone cost-comparison section covering the three vendor options we discussed. Updated Exhibit A is attached to this thread for signature.

Maria
